

Advisory on Crypto Payments

In the best interest of our customers and to keep their investments safe, we advise not to deal in any type of Cryptoassets transactions, invest or facilitate in dealing such currencies including transfer/receipt of money in accounts relating to purchase/sale.

Cryptoassets are considered to be very high risk, speculative investments. UK consumers are being increasingly targeted by crypto asset-related investment scams. Most of the Cryptoassets are not regulated by the Financial Conduct Authority (FCA) and is not protected by the UK's Financial Services Compensation Scheme (FSCS). If you buy/transact into Cryptoassets, you are unlikely to have access to the Financial Ombudsman Services (FOS), should something go wrong, and you should be prepared to lose all your money.
